**IDS Ultra (Coming Soon)**

Bosch's latest heat pump makes energy-efficient home comfort accessible across almost all climate zones in North America. The Inverter Ducted Split (IDS) Ultra is the first Bosch air-to-air heat pump designed specifically for cold climates— even areas that experience sub-zero temperatures. Powered by Bosch inverter technology, the system can heat at 100 percent heating capacity down to an outdoor temperature of 5° Fahrenheit (-15 Celsius) and will continue to initiate heating even down to -13° Fahrenheit (-25 Celsius).

**GrenTronic 7000T Hybrid**

Coming Soon! The Bosch GrenTronic 7000T Hybrid Electric Water Heater. This heater has efficient heat pump technology integrated into an electric storage water heater to meet all your hot water needs. Meets qualification for the federal 25C tax credit of 30%, up to \$2000. The heater is Energy Star and NEEA Tier 4 rated. Contains a variable speed fan and a microchannel heat exchanger to achieve the highest level of efficiency. Heat will come in 50 and 80 gallon options and will be 3 to 4 times more efficient than a traditional water heater.
